

## BRIGHT'S DISEASE

Let there be no evasion—we mean chronic and supposed incurable cases involving dropsy, albumen and casts. They are curable in a great majority of cases.

Let us cite a typical case—that of Mr. R. P. Tuckers, of 1244 Spaight Street, Madison, Wis. There had been eight physicians on this case and it got so extreme that he finally had one of the last symptoms, namely, falling eyesight. In January, 1907, the doctors admitted that nothing further could be done, and they sent him to Eureka Springs, Ark. He continued to get worse, the dropsy finally reaching the stomach, heart and lungs. At one time tests showed albumen as high as 75 per cent.

He learned of Fulton's Renal Compound and began to take it July 3d. Dropsy began slowly to decline and the albumen dropped to forty, then to twenty, then to ten and finally to two per cent. in May, 1908.

The patient is now back to his employment and is devoting full time to his business.

Patients desiring to know more of this treatment can get full literature by writing to the John J. Fulton Company, 211 First Street, San Francisco, Cal.

Fulton's Renal Compound can be had in your city at Owens & Minor Drug Co.

We desire every patient to write us who is not noting the usual improvement by the third week.

TWO FIXED LIGHTS  
WILL BE ERECTED

They Are Secured for Lower Lancaster County by Congressman Jones.

[Special to The Times-Dispatch.] LANCASTER, VA. July 17.—Through the efforts of Hon. William A. Jones, member of Congress from this district, the United States Lighthouse Board has decided to establish two fixed white lights in Dyer's Creek, in the southern part of Lancaster County, to be known, respectively, as Dyer's Creek Light and Port Hand Shoal Light. This will be a great convenience to seafaring men who sail in and out of these waters. Such lights have heretofore been kept up at the entrance of this important stream have been maintained by Bellows & Squires, proprietors of a large menhaden fish factory and a large lumber plant at Ocean. Assurances have been given Mr. Jones that measures to establish these lights will be taken at once.

Investigations made by persons who have oysters planted in the Eastern Branch of the Coroman River have revealed the fact that the heavy rainfall in June and the consequent breaking of two large mill dams, have killed nearly all the oysters in the upper part of these waters. The immense quantity of fresh water from the millponds, with the mud and silt brought down with it, either killed or ruined

the oysters. Captain Davis lost nearly 2,000 bushels of oysters in this way, and some of his neighbors fared not much better.

**A Quiet Campaign.**  
The midsummer term of Lancaster Circuit Court will begin here next Monday. Court business promises to be very light, but the trial will be in full blast. It is not probable that either Judge Mann or Mr. Tucker will be here, as no authentic announcement of their coming has yet been made. The local candidates for the House of Delegates and their friends will, however, try to make things lively. In the meantime, the contest for Governor in these parts is dragging its slow length along, and very few persons except those who expect "favors to come" seem to be taking any interest in it. Not even the publication of Judge Mann's letters, written to Gen. Malone in 1879 and 1880, has done more than create a ripple on the surface.

The Republicans of Lancaster will hold a meeting here next Monday to appoint delegates to their State convention that will meet in Newport News on July 28. The county chairman says there are no factions in the party here; that a full delegation will attend the convention, and that the delegates from this county will probably vote as a unit on all important matters. He also says that the delegates from this county will go unpledged with a free hand to vote for the men and measures that give the greatest promise of success.

**Preparing for Camp Meetings.**  
Active preparations are making for the three camp meetings that will be held in Lancaster and Northumberland during the month of August. The first to be held is at Marlboro, near the border line between Lancaster and Northumberland under the auspices of the Methodists; the next at Kirkland Grove, in Northumberland, and the third at Wharton Grove, in the lower part of Lancaster, the two last named being under the auspices of the Baptists. Preachers and choir leaders from a distance have been secured, and tent-holders are putting things in shape for the coming meetings.

The groom is a popular young business man of Killmarnock, while the bride is a very attractive young woman, being the daughter of Captain and Mrs. George P. Spaulding, of Ocean.

**ATTENDANCE AT NORMAL GREATEST IN ITS HISTORY.**  
UNIVERSITY OF VIRGINIA, July 17.—The attendance at the University summer school is the largest in its history. It now exceeds 1,100. Every effort has been put forth by the director of the summer school, Dr. Bruce R. Payne, and his associates, to make this summer's session memorable. Every room on the campus, heretofore rented to students, is now occupied by young ladies. The ready access to "The Commons," the dining hall, has put a premium on the dormitories on the campus. Of the 215 teachers enrolled here from other States, North Carolina has the largest representation, leading with fifty-eight, while South Carolina followed close behind with fifty-two, and Maryland with seventeen.

Rural week has attracted a good many visitors, in particular division superintendents and high school principals. The meetings have been generously patronized. The evening sessions are being held in the open air. Several hundred persons heard Superintendent Eggleston yesterday evening.

**Taken from Pottery Field.**  
NORFOLK, VA. July 17.—The body of Harry R. Dearing, of Chattanooga, Tenn., found dead in the water at Ocean View this week following his supposed suicide, will not be allowed to rest in the pottery field where it had to be buried immediately following the inquest.
